

PRINCIPLE OF HOPE EUROPE

PROJECT PRESENTATION
OF THE MERZ AKADEMIE
IN STUTT GART

HOSTED BY
HOUSE OF EUROPEAN HISTORY

Principle of Hope Europe takes Ernst Bloch's "militant optimism" as the starting point for a critical and artistic examination of the relationship between historiography, design, art, media and discourse in Europe. Students and professors working within the master program "Research in Design, Art and Media" at the Merz Akademie in Stuttgart will present their work inspired by questions related to the House of European History. As both an end and beginning point, the presentation and discussion should lead to the formulation of a "next step" towards a further development of the project.
